EDUCATION

Government Engineering College Kozhikode

B.Tech in Computer Science and Design Engineering

West Hill, kozhikode

Oct. 2022 – June 2026

GVHSS Meppayur

Higher Secondary

Meppayur, Kozhikode

June 2020 – March 2022

PROJECTS

Glaucoma Detection using Deep Learning | *AI ML*

Ongoing

- Developing a deep learning system for early glaucoma detection using fundus images. The model detects RNFL and PPA, automating screening to aid clinicians with faster, accurate diagnosis and helping reduce the risk of vision loss.
- Implemented preprocessing and deep learning techniques to analyze retinal fundus images and detect RNFL defects and PPA regions.

Application for Ladies Hostel Management and Administration | *Flutter, MongoDB*

March 2025

- Designed and developed a simple and user-friendly application to streamline ladies hostel operations, including user registration, mess cut requests, attendance, notifications, permission management, homegoing and outgoing tracking, and complaint management.

Njammale koyikode Website | *Html, Css, JS*

Nov 2024

- Created an interactive travel website to explore popular tourist destinations in Kozhikode, Kerala, with detailed information on each location.
- Implemented a booking system allowing users to schedule visits or activities, enhancing trip planning and user convenience.

MetaSpark AR Treasure Hunt | *Metaspark Studio*

Oct 2024

- Developed interactive AR clues and enhanced participant engagement through gamified AR Hunt.
- Strengthened skills in AR development, event coordination, and team collaboration.

EXPERIENCE

Internship at NarrowLabs

June 2025

ONLINE

- Handling tasks from web development to cloud deployment.
- Gained hands-on experience with AWS services (S3, Lambda), building scalable applications and ensuring smooth end-to-end project delivery.

Micro Mentoring Program – IEEE SB GECK

Oct 2024

GECK

West Hill, Calicut

- Mentored students in a 2-Week C and Python programming session, guiding them through fundamental programming concepts.
- Enhanced technical knowledge and skills by explaining logic building, syntax, and structured programming.

ADDITIONAL INFORMATION

Volunteer: WIC IEEE CS SBC GECK , MuLearn Tech Lead , IEEE CS SBC GECK Assistant Program Coordinator, ISTE GECK Design Team , IEEE GECK Design Team

Certifications: NPTEL Python for data Science , Udemy Ethical hacking , CISCO Networking Basics , NIELIT AI Bootcamp

TECHNICAL SKILLS

Programming Languages: C , Python

Additional Skills: AI ML , Cloud computing , Graphic Design , Try hack me
